**ENABLING PROGRESS, ENRICHING COMMUNITY LIVES
WITH THE STRENGTH OF STEEL**

Saudi Steel Pipe Company (SSP) has been recognized as Saudi Arabia's premier manufacturer of high quality ERW/HFI carbon steel pipes & Hot Induction bends, serving the region's largest projects in many sectors over the past 30 years.

SSP is committed to provide quality products and technical services, with annual capacity of 240,000 Metric Tons drawn from 4 distinct production lines for size range from 1/2" to 20" and hot induction bends from 2" to 48" according to many international standards.

Install Innovation

Expertise In Leading Innovation

Armacell is a global innovator in foam technologies and the world leader in the market for flexible technical insulation materials. Its wide range of products provides solutions for energy conservation and energy reduction.

With the rapid pace of climate change and rising energy costs, the insulation of building equipment and industrial installations is playing an ever increasing role in energy efficiency.

In addition to its renowned package of thermal insulation materials for air conditioning, refrigeration systems, heating and plumbing (HVAC) and solar installations, the company offers a reliable range of fire, acoustic and mechanical protection solutions as well as special insulation systems for industrial applications and OEM segments.

The pipes, ducts, vessels and tanks of these systems are insulated to prevent condensation forming, absorb sound and vibrations and reduce energy loss.

FACTS AND FIGURES

The company: Armacell International Holding GmbH

Founded: In 1860 the first activity started of Armacell's former parent company Armstrong Cork, which later became Armstrong World Industries. In 2000 Armstrong's insulation product division becomes independent under the name of Armacell.

Headquarters: Münster (Germany)

Global presence: With 2,500 employees, 19 plants in 13 countries on 4 continents, Armacell has presence in 88 countries.

AHMED MANSOOR AL-A'ALI COMPANY BSC (C)

Structural and Mechanical Division

Building Relationships Based on Integrity and Performance

The **Ahmed Mansoor Al-A'Ali Group (AMA Group)** is one of the largest and most respected conglomerates in the region engaged in Manufacturing, Contracting, Trading & Real Estate.

The **Structural & Mechanical Division (AMA-SMD)** was established in 1990 and has the Largest Fabrication Facility in the Middle East providing design, detailed engineering, material procurement, fabrication, coating and delivery to site for:

- **Structural Steel**
- **Process & Utility Piping**
- **Plate Steel for Furnaces, HRSG's, Ducts**
- **Pressure Vessels, Heat Exchangers & Storage Tanks**
- **Pot Shells, Crucibles, Super Structures, etc.**
- **Packaged Units, Skids**

Turnkey Precast Concrete Plants for Modern Building Systems

- low cost mass housing
- individual villas
- town houses
- apartment blocks
- high-rise buildings
- commercial shopping centers
- schools & hospitals
- industrial hangars
- car parks

- Concrete HARD facts for YOUR success**
- strong and extremely durable
 - shaped in nearly any design
 - high factory made constant quality
 - straight, accurately fitting
 - smooth, ready-to-paint
 - based on natural raw materials
 - fast erection, stiff connections
 - high fire resistance
 - earthquake and hurricane resistant
 - for any construction application

- Long Line Slip Former and Extruder Systems for Slabs, Beams, ...
- Tilting Tables and Battery Moulds for Wall Panels
- Moulds for Stairs, Beams & Columns, Foundations
- Automated Concrete Batching Plant and Feed Systems

ALL from ONE single source
weiler engineers and technicians design, manufacture and install your turnkey tailor-made precast concrete plant.

Meet us at:

- BIG5 Dubai 05-08 Nov. 2012. Booth MEC E100, Saeed Hall
- Saudi Build Riyadh 11-14 Nov. 2012. Booth 316-3, Hall 3
